OBJECTIVE

I'm Muhammad Kabeer, a Computer Science student with a solid foundation in software development. I have successfully completed numerous projects for clients, collaborating with diverse teams to deliver quality results. As a quick learner, I can seamlessly transition between technologies. I am now eager to advance into a professional role as a Software Developer to further refine my skills and expand my expertise. My dedication and technical abilities make me a strong candidate for your team, and I look forward to the opportunity to discuss how I can contribute to your success in more detail.

SKILLS

API Development	Database (MySQLi, MongoDB)	Programming Languages
Reactjs (MERN)	HTML and CSS (Bootstrap)	(C, C++, C#, Python, Dart)
Javascript, Typescript	REST API	Flutter with Firebase

PROJECTS AND EXPERIENCE

ConnectUS (FYP project)

Reactjs using Typescript (MERN)

Developed a web application connecting university students with software Houses for internships or Job. It is similar with LinkedIn but the main difference is that its take a mock test to examine their skills. it also provides a live chat functionality with Socket.io for live changings. Utilized React.js and Tailwind CSS for the frontend, and Node.js, TypeScript, and MongoDB for the backend.

Go Drive (Ridesharing App)

Flutter integration with GoogleMaps

An app like uber and indrive I have Developed a ridesharing app using flutter with firebase integration and also use google map API integration.

Chat System

Flutter with Firebase integration

I have developed a live chat App as link WhatsApp as my semester project in Flutter with firebase integration.

Inventory Management System

.Net and C#

I have developed an Inventory management system as my semester project using .Net and C#.
